## Template Instructions

	<p><b>Saran Wrap</b></p> <p>One key to the success of a custom hair system is its fit; the base of the system must correspond to the head shape and frontal recession desired. Making a tape template of the head, which is transparent and can be drawn upon, is the perfect solution to achieving a perfect fit.</p> <ul style="list-style-type: none"><li>➤ Place a sheet of clear plastic saran wrap on your head and wrap the sides under your chin like a bonnet. Lightly tie the ends together. (not shown in picture)</li><li>➤ Press the saran wrap close to the head to remove any wrinkles.</li></ul>
	<p><b>Template Pattern</b></p> <p>Using a Sharpie permanent marker, outline the bald area right at the hairline. Draw in the frontal hairline with the desired recession. The frontal hairline is usually located ~ 3-4 finger widths above the eyebrows.</p> <ul style="list-style-type: none"><li>➤ After the entire outer perimeter of the pattern is drawn, the desired hair direction should be indicated with arrows.</li><li>➤ If a part is desired, indicate where you would like it.</li></ul>
	<p><b>Forming the Template</b></p> <ul style="list-style-type: none"><li>➤ Beginning at the forehead, place strips of strapping /scotch tape over the saran wrap.</li><li>➤ Apply 3 layers of tape; 1<sup>st</sup> layer lengthwise, 2<sup>nd</sup> layer widthwise, 3<sup>rd</sup> layer lengthwise</li><li>➤ The tape will lock the saran wrap into a 'semi-hard' shell.</li></ul>
	<p><b>Final Steps</b></p> <p>Remove the shell from your head, turn inside out and note the outer line that was previously drawn.</p> <ul style="list-style-type: none"><li>➤ Trim the excess saran wrap off with a pair of scissors.</li><li>➤ Write your last name on the template.</li><li>➤ Indicate the front of the template with an 'F' and the back with a 'B'.</li><li>➤ The remaining semi-hard shell will be mailed to the factory along with the design brochure / order form and hair samples to create your unique customized hair system!</li></ul>
